Echolands Winery Grenache Rosé  
Blue Mountain Vineyard 2023  
Walla Walla Valley – As usual, we worry less about color on this rosé and more about crisp tanginess. This portion of Blue Mountain Vineyard offers less ripening for the Grenache than any other spot and that makes it ideal for our purpose – we want retain acidity. Grenache’s fragrant aromas of strawberries and spice provide ideal material for rosés; our goal throughout has been to preserve the wine’s freshness and lift. This is a style we find easy to achieve sourcing from the cool, elevated Blue Mountain Vineyard.
